### On-demand Gigabit flexibility

Connecting businesses and local communities is at the heart of everything we do. With CityFibre's Ethernet Flex 1Gbps you can ensure your customers have more than enough bandwidth to cover unpredictable spikes in demand, whenever they need it.

With 200Mbps bandwidth up and down guaranteed and 1Gbps ready and waiting without any additional cost or the need to request it, Ethernet Flex can boost their business performance, supercharging their productivity and accelerating economic growth.
