

Celebrating success

Our partners are true champions

We'd like to give a huge round of applause to our tenacious channel partners. In a particularly challenging year for everybody, our partners have resolutely pushed full speed ahead, continuing to position full fibre at the heart of their business propositions – supporting the recovery of the country's economy, through the delivery of gigabit capable full fibre connectivity.

We'd like to say a big thank you to all our partners for continuing to support us and sharing our core values.

Backing each other is the CityFibre way

Be a part of it in 2021
