

Elo Access™ Self-Service Solutions

Let Elo help simplify access control and visitor management with an Elo Access™ solution. The modular platform for self-service employee and guest screening enables businesses to easily deploy an interactive questionnaire and temperature reader to provide initial, real-time checks prior to entry.

Increase Safety | Automate Screening | Modular | Easy to Manage

Temperature Sensor Pro

Utilizing an infrared bolometer and 2D camera, the sensor can detect faces, automatically adjust based on height, and output temperature data for each person detected in the field of view (FOV).*

Elo Access App

Easily deploy a customized wellness-screening questionnaire to get up and running quickly. With the Elo Access App, you can tailor questions to screen employees and visitors at entry to assess wellness related concerns.**

*The Elo Access Temperature Sensor is not intended to diagnose, treat, cure, mitigate, or prevent any disease or health condition, including COVID-19. An indication of an elevated body temperature should be confirmed by a secondary evaluation method (such as a non-contact infrared thermometer or clinical grade contact thermometer). Use only as directed; various environmental and methodological factors can impact thermal imaging. HIPAA compliance is responsibility of user. This is not an FDA-approved device. Not available in all areas.**Screening questions for the Elo Access App are the responsibility of the user, who must confirm compliance with applicable data privacy, medical data privacy, and employment laws and regulations, including HIPAA compliance. Not available in all areas.
