

# Elo Huddle Kit

## Helping Businesses Stay Connected

As corporate offices begin to open, collaboration via video conferencing will be essential. With Elo's Huddle Kit and interactive displays, companies can transition back into offices without disruption to productivity by enabling on premise employees to share information in real time with remote meeting participants.

Each kit includes Elo's Conference Camera and i5 Windows 10 Computer Module complete with a pre-loaded intuitive dashboard for easy navigation to the whiteboarding and wireless BYOD content-sharing software. The dashboard also allows for quick access to any 3rd party video conferencing and office productivity software.

## Elo Interactive Huddle Solutions

Purpose-built to make collaboration easy - simply connect the Huddle Kit with an Elo 4K interactive display to create a robust huddle room solution.

**Elo Computer Module**

Elo's powerful i5 Windows 10 computer module seamlessly integrates with the 53-Series displays, making installation a breeze. With an open platform to support enterprise applications, simply load your 3rd-party software.

**Conference Camera**

The Conference Camera delivers full HD video with wide viewing angles, an adjustable slider and 25° tilt that supports both vertical and horizontal adjustment.

**Software**

Complete with DisplayNote's intuitive dashboard interface for easy navigation to your collaboration apps, Montage for your wireless BYOD content sharing, Qwizdom's robust annotation and whiteboarding solutions.\*

**55" or 65" Interactive Display**

Elo's 4K Interactive Displays, available in PCAP or IR with anti-glare, offer a sleek, slim design built to withstand the rigors of continuous commercial use.

## Benefits

### One Manufacturer

All components have been purpose-built to seamlessly integrate creating a turnkey solution driven by a single power supply.

### Easy Installation

Get your meeting spaces set up in minutes. Simply slide in the computer module, attach the Conference Camera and Stylus Kit, and mount the display to the wall - all with a single cable to power everything.

### Enterprise-Grade

Backed by Elo's 3-year standard warranty and industry leading support, each component has been designed to withstand the demands of commercial environments.

### Compatibility

Backed by a Windows 10 operating system, the Elo Huddle Kit offers a software agnostic platform supporting all major web conferencing applications
