

The Touch Patient Care Needs

Enhanced patient care and streamlined healthcare operations

Elo offers touchscreen solutions for a variety of healthcare applications. From patient registration and nurse stations to medical devices and telehealth, streamline healthcare administration and enhance the patient experience with our versatile solutions. Elo is committed to supporting our partners and customers with touchscreens and touchscreen components. From supply chain to design engineering, we can help turn concepts into critical patient care solutions.

With a full line of interactive touch solutions, Elo has available inventory for your immediate touchscreen and touchscreen monitor needs. Elo can help design products for applications including ventilators, anesthesia machines, diagnostic monitors and medication dispensers. Our team stands ready to help with world-class engineering and manufacturing resources.

From the operating room to patient self check-in, and anywhere healthcare is provided, Elo products work with long-lasting quality and reliable performance.
