

MobiSystems has just released a major PDF update

The First Android application to offer full PDF support and complete PDF editing capabilities. With the updated version, users get a desktop functionality on mobile devices to view PDFs, edit texts and images, organize pages and more.

The application boasts all the benchmark design features, interface and functionalities, based on MobiSystems' vast experience in app development and its huge portfolio of mobile products. Functions like Fill PDF forms, Sign and Certify documents, Comment and Protect files, Scan to PDFs, Print, and Convert between PDF and Word, Excel or ePub formats are all now made available.

Quick PDF comes also with an integrated file manager, based on the world-leading File Commander application and can be connected to any cloud account. All these features, accompanied by 5GB of free MobiSystems Drive storage makes Quick PDF all you need to work and manage PDF files on-the-go.

Availability

Quick PDF is available with an annual subscription on [Google Play Store](https://play.google.com/store/apps/details?id=com.mobisystems.quickpdf) or from <https://www.mobisystems.com/pdf-extra/>
