

# INTRODUCING NTA'S MOBEX

Mobex is a mobile application that offers you the ability to make and receive calls on your mobile from anywhere in the world using your mobile as an office extension.

The app has a user-friendly interface so you can easily make and receive phone calls, place calls on hold and transfer calls to another extension or external telephone number using a WiFi connection. The Mobex app is able to 'handover' to GSM when the WiFi signal is poor or not available.

Unbranded or White Labelled versions available - why not have your own branded app on the app store? Give us a call to find out more.

## Features Include:

- Voicemail with visual indication for business calls, separate from your personal voicemail
- Local Phone Contacts directory and a Company Cloud phone book with a search facility allows you to have all your contacts in one place
- Presence Management with Busy lamp indication showing call detail, inbound, outbound, internal
- Presence Status showing Unavailable, In Meeting, Logged in/out, On Holiday, At Lunch and many more
- Call forwarding, Do Not Disturb, Call Mute, Loudspeaker
