

Philips Touch Monitors

Durable touch screens for demanding environments

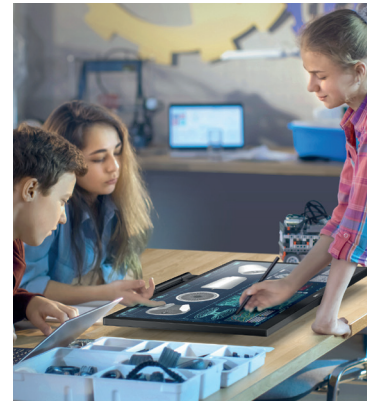

THREE YEAR
On-Site
Warranty

Philips range of interactive monitors with SmoothTouch technology are sturdy IP65 water- and dust-resistant front screens, plus the articulating stand fits any angles you need, making them ideal for warehousing, packaging or any type of less-than-perfect environment.

With toughened glass and P-Cap 10-point touch technology these monitors are operable with Latex Gloves and can be wiped clean with chemical and anti-bacterial cleaners.

Offering simple and intuitive use across applications greatly boosts productivity.
